

# SUPERCOMPUTINGASIA (SCA) CONFERENCE

Co-organised by HPC centres from Australia, Japan, Singapore and Thailand, the SCA conference is an annual event that encompasses an umbrella of notable supercomputing and allied events in Asia. Established in 2018, the conference has become a key networking and collaboration platform for regional and global supercomputing partners, which attracts HPC thought-leaders, decision makers, academics and industry professionals.

## SCA 2024

Supercomputing Asia

Gathering the **Best of HPC** in Asia

For the first time in its history, SupercomputingAsia is leaving Singapore and heading to Sydney, Australia. Mark your calendars and join us from **19 - 22 February 2024** at the **International Convention Centre Sydney** for a celebration of the vibrant HPC ecosystem in Asia. For more information, visit [www.sca24.sc-asia.org](http://www.sca24.sc-asia.org) and **REGISTER NOW!**
